PROFILE

Software Technology undergraduate at the University of Vocational Technology, with an interest in software development and technology. Currently developing knowledge of programming, web development, databases, and software testing through academic studies and practical projects. A motivated and detail-oriented individual who enjoys learning new skills, solving problems, and working with others. Seeking an opportunity to gain practical experience and grow professionally in the IT industry.

EDUCATION

B Tech (Hons) in Software Technology **Jun 2024 - Present**
University of Vocational Technology
Undergraduate Student

G.C.E. Advanced Level **(2022/23)**
Christ King College, Jaela
ICT – *C* | Science for Technology – *C* |Engineering Technology – *C* | General English – *A* | **Z-score:** 0.9708

PROJECTS

Subtly Chic — To-Do & Notes App (Individual) React | Tailwind CSS | Supabase | PostgreSQL | Netlify

- Built a full-stack task app featuring authentication, full CRUD, category filters, and a calendar view.
- Configured PostgreSQL Row-Level Security (RLS) for data isolation and automated Netlify CI/CD deployment.

Portfolio Website (Individual) React | Vite | Tailwind CSS | HTML/CSS

- Designed a responsive portfolio showcasing software projects, technical skills, and academic highlights.

Glow & Blush — E-Commerce Web Application React | Node.js | PostgreSQL | Tailwind CSS

- Developed a skincare storefront featuring product filtering, a persistent cart, and secure JWT authentication.
- Designed normalized PostgreSQL database with safe transactional order processing and row locking.

EXPERIENCE

Quality Assurance (QA) Tester (University Website Development Project | University of Vocational Technology)
Tested website features and user interfaces to identify bugs. Collaborated with developers to track defects and verify fixes. Supported the improvement of website functionality and user experience.

TECHNICAL SKILLS

Programming & Web Development: JavaScript, HTML5, CSS3, React, Next.js, Node.js
Databases: PostgreSQL, PL/SQL, Oracle APEX
Testing & Tools: Git, GitHub, Postman, Selenium, JMeter, REST APIs

SOFT SKILLS

Problem-Solving • Team Collaboration • Effective Communication • Time Management
Adaptability & Willingness to Learn • Analytical Thinking
